

# KALAM CM

## Unique as our imagination: Our one-of-a-kind custom 3D printer.

Introducing the Kalam Customized Machine: A cutting-edge addition to our lineup, designed for those seeking tailored 3D printing solutions. This versatile and user-friendly device is not just a 3D printer; it's your partner in precision. Whether you're a student, an institution, or an industry leader, this customized marvel is engineered to meet your unique production needs. From prototyping to batch manufacturing, it's your gateway to a future where innovation knows no bounds. Join us in revolutionizing your industry with the Kalam Customized Machine.

## SPECIFICATIONS

- BUILD VOLUME : 150mm - 450mm
- NOZZLE DIAMETER : INTERCHANGEABLE
- (0.2-1)
- FILAMENT DIAMETER : 1.75MM
- NOZZLE TEMPERATURE : 270°C max
- HEATED BED : YES
- CONNECTIVITY : USB, SD CARD, Wifi (Optional)
- FILE FORMAT : STL, OBJ

## MATERIALS SUPPORTED

This versatile machine is capable of 3D printing a wide range of materials, including PLA, ABS, PLA-Wood, PLA-CF, PMMA, Ceramic, PP, and TPU. Its applications span various industries, making it suitable for tasks such as prototyping, manufacturing consumer goods etc.,
